## VINEYARD

Our vineyards are located in Villa Alegre, in Maule Valley, one of the main regions of Central Valley. We have a mediterranean climate, with 735 mm of rain per year, and very sunny and dry summers. The vines grow in alluvial soils, composed mainly by clay and sand. The great range of temperature between day and night allows our grapes to develop ripe tannins, rich aromas and high concentrated flavors.

## WINEMAKING

Harvest in mid-April. Fermentation in stainless steel tanks with selected yeasts at controlled temperatures ranging from 26° to 28°C for 7 days. Stabilization, filtration and bottling.
